INTRODUCTION

The Purchasing Handbook was developed as a general guide for school sites and departments to use as a quick reference. Please refer to the Student Activity Fund Manual for Student Activity Fund purchases. More information is available to you by contacting the Purchasing/Warehouse offices. On occasion, a procedure may be changed or deviated from due to necessity, and always in the best interest of the district.

PURCHASING ETHICS

To regard public service as sacred trust, giving primary consideration to the interests of the school district by which we are employed.

To purchase without prejudice, seeking to obtain the maximum benefit for each tax dollar expended.

To avoid unfair practices, giving all qualified vendors an equal opportunity.

To respect our obligation and to require that obligations to our school district and us be respected.

To accord vendor representatives the same courteous treatment we would like to receive.

To strive constantly for improvement of purchasing methods and of the materials we buy.

To counsel and assist fellow purchasing agents in the performance of their duties, whenever occasions permits.

To conduct ourselves with fairness and dignity and to demand honesty and truth in buying and selling.

To cooperate with all organizations and individuals engaged in enhancing the development and integrity of the purchasing profession.

To remember that everything we do reflects on the school district, and to govern our every action accordingly.

To decline personal gifts or gratuities.

To regard each transaction on its own merit; to foster and promote fair, ethical and legal trade practices.

PURCHASE ORDER PROCESS

Before you buy

The first step in acquiring goods or services for your site is to define your needs. What issue or need are you trying to solve through this procurement? Once this is determined, a detailed specification or scope of work can be developed for use in the purchasing process. A specification may include any or all of the following:

- Quantity
- Model number
- Color
- Training requirements
- Maintenance requirements
- Estimated cost

The purchasing office is available to assist in finding sources for both goods and services, and maintains a database of local, regional, and national vendors. Many items are available using existing piggyback bids and multiple award contracts that allow the district favorable terms and pricing.

Departments may contact suppliers for price estimates and product information; however, for purchases with a total cost over \$500, the Purchasing office must review and execute the final order. Three verbal or written quotes must be obtained for total cost purchases between \$500 and \$4,999 (attach verification to the requisition). Three written quotes must be obtained for total cost purchases over \$5,000 (attach documentation to the requisition).

The formal bid process must be followed for unit costs \$25,000 and over. Contact the Purchasing office for an estimate of time to allow.

How do you proceed?

Fill out the purchase requisition form in the CIMS system. Refer to Appendix A thru D for further guidance.

Under no circumstances are requisitions to be handed to salesmen or vendors.

Following the processing of a requisition by the Purchasing Office and completion of a purchase order, the requester shall receive a copy of the purchase order verifying that the order has been placed.

Contact the warehouse if you are expecting a replacement item on a purchase order. This could be a substituted item or a replacement for a damaged item. If the warehouse staff

cannot match the item to the original purchase order, or it appears to be a duplicate, they will automatically return it to the vendor.

Note: Most vendors increase their item prices annually so it is not good practice to order items with prices from a previous year purchase order or catalog.

Unauthorized Purchase

Only authorized individuals may financially obligate the Waukegan Public Schools District. The District requires issuance of a signed purchase order prior to a vendor furnishing services or shipping materials. The Purchasing Department is the only department authorized to sign a purchase order. A list of authorized individuals who may authorize requisitions may be obtained from the Purchasing Office.

The Purchasing office shall conduct or supervise all purchase transactions for the District. In the event that an unauthorized purchase is made the following may apply:

1. Any purchase of supplies or equipment made by staff members, without prior purchase order approved by the Purchasing office, may not be paid for by the district.
2. Purchases made in the name of the District without an authorized purchase order may be considered an obligation of the person making the purchase and not an obligation of the District. Deliveries of materials or services, which are made without a purchase order or a contract, are made at the seller's risk.

On occasions, employees of the Waukegan Public Schools District place orders without proper authorization. These occasions will be documented and are subject to administrative action and training. This practice has resulted in duplicate orders, delays in payments to vendors, and unnecessary time spent verifying the order.

Exception: District administration may purchase up to \$300 without a pre-approved purchase order, in an urgent situation. A check request must be processed in CIMS; a signed check request form and support documentation must be submitted for payment or reimbursement. But, whenever possible submit a requisition prior to the purchase to obtain a purchase order.

Blanket purchase orders

The requisition for a blanket purchase order must have:

- "not to exceed" amount
- valid dates for the fiscal year
- authorized names of employees who will be picking up from vendors

A copy of the invoice signed by the person making the pickup must be forwarded to the Accounts Payable office the first day after the purchase if made. The purchase order number must be indicated on all invoices and receipts.

Remember: No Receipt= No Payment to Vendor

Keep blanket purchase orders at an absolute minimum, the entire amount of your blanket purchase order will be encumbered and will not be available for other purchases. Blanket purchase orders may not be used for furniture, equipment or any individual item. Blanket purchase orders are typically used for utility bills, the maintenance department's supply needs, special education alternative placement sites, etc.

Emergency purchases

Emergency purchases should be processed as a check request and only for an immediate need to protect public health and safety. To obtain an emergency purchase, please contact the Purchasing office and provide the following information:

- Check request number
- Vendor name
- Total cost
- Reason for the emergency Check Request

Print and sign a completed check request form and submit to the Purchasing Office for processing.

Urgent Purchase Orders

An urgent purchase should be processed as a check request when a situation arises that you were unable to foresee or plan. If this occurs, you may walk through the request for approval and take to the Purchasing office for processing. Please indicate "RUSH" at the top of the form. If the Purchasing office receives urgent requests from your site/department on an ongoing basis, the problem will be addressed to the Director of Budgets and Grants and the Deputy Superintendent/Chief Operations Officer, at the discretion of the Purchasing Agent.

Do not place any order with a vendor using a requisition number. Wait until you receive the completed purchase order. If you don't follow this procedure, you take the risk of duplicating the order. The district will not be responsible for duplicate orders.

Requesting Checks

Occasionally, there is a need to purchase supplies or equipment from vendors who will not accept a purchase order. In this event, you must complete the check request form in the CIMS system. Please follow the steps below:

- Obtain an exact price quote from the vendor
- Forward the completed Check Request form to the Purchasing office with appropriate signatures and support documentation

These guidelines are only to be used for those occasions where vendors will not accept purchase orders. Whenever possible, utilize the regular requisition process. Refer to Appendix D for input instructions.

Purchase Order for maintenance agreements (copiers and other office equipment)

Submit a requisition, annually, for on-going maintenance agreements. Include the unsigned copy of the agreement. The Executive Director of Technology is the authorized signature for these agreements and contracts.

Ordering computers and software

When ordering computers, include on your requisition or submit a separate requisition for the software and licenses that are needed to operate them. Contact the Technology Department for computer and software specifications and recommended vendors. Different equipment and software are necessary depending on the use of the computers. Many quotes/E-quotes are only valid for 30 days; make sure the quote has not expired.

Reminder: All computer and software purchases must be approved by the Executive Director of Technology.

Making larger or more complex purchases

Requests for construction, building improvements, playground equipment and other structural changes are to be directed to the office of the Deputy Superintendent/Chief Operations Officer for approval.

To lease/purchase a copier, or buy any other large item, site/department personnel may search for the type of machine or equipment and suggest a vendor they would like to use; however, they must contact the Technology department for assistance.

Unless the purchase can be made utilizing a "piggyback bid" of another public agency, three verbal or written quotes (\$500 - \$4,999) or three written quotes (\$5,000-bid limit) will be required. If the individual purchase is over the bid limit of \$25,000, the bid process must be followed unless a qualifying "piggyback bid" is available for the District's use. The Purchasing office is available to assist you.

Reminder: Copier lease agreements must be approved and signed by the Executive Director of Technology.

WAREHOUSE

What may be ordered from the Warehouse?

The warehouse stocks items of frequent and common usage. Items stocked include: printed forms, sports supplies, janitorial supplies and copier paper. To acquire goods from the warehouse, refer to Appendix A for further guidance.

Need to return merchandise?

Contact the vendor within thirty (30) days of receipt of merchandise. Let them know why you are returning the item(s) and give them the purchase order number. The vendor will give you a return authorization number. Address package to the vendor with a new shipping label. Note PO number and return authorization number on the package and the reason for the return such as "Duplicate Order Received" or "Exchange". Notify the warehouse that you have a return going back to the vendor.

Depending upon the type of commodity, vendor or purchasing conditions, restocking and/or shipping charges may have to be paid if the item was improperly specified on the original requisition.

TRACKING AND TAKING CARE OF YOUR EQUIPMENT

Does your equipment need repairs?

Items covered under warranty or maintenance agreement:

call the vendor to request repair since no charge will be incurred
if an item must be taken to the warehouse for sending back to vendor, call the
warehouse to arrange for pick-up. Provide them with the make, model, and
serial number of the item needing repair.

Item no longer covered under warranty or maintenance agreement (charges will apply):

contact vendor for an estimate and submit a requisition
sites should contact the technology department for disposition because an
open purchase order may be set up for such repairs which expedites the
process when needed

Asset Inventory

Most equipment categorized as a district asset must be delivered to the warehouse. The warehouse will affix a district asset number to the item and forward paperwork to the purchasing office for data entry to inventory list. On occasion, equipment may be delivered directly to the site because of the difficulty for warehouse to deliver. In this case, an asset tag will be sent to the site to affix on the asset. Typically, assets that are over \$500 and capital assets are items that cost over \$5,000. School districts are required to track all assets from purchase to disposal.

Once a year purchasing will send an asset list to each site/department. The site/department will verify the asset list by making corrections as necessary, including remarks, and forward the list to Purchasing. Site/departments must account for all assets listed. Either the items listed are still at your site or have been disposed of by means of transferring to another site, stolen, lost, etc. Attach documentation for all disposed assets.

When all verification has been received Purchasing will update the district inventory list and print a master report by site with the verification copies attached. Your site/department will receive a copy of the final report.

The final asset inventory report will be retained in the purchasing office for review by the district's independent auditors. The auditors will verify, at random, the information reported by each site/department.

Surplus property disposal

Surplus property disposal of all school district materials and equipment is managed by the purchasing office.

Make an appointment with purchasing before disposing of any district property.

Refer to Board Policy Number 3205 for guidance regarding disposal of district equipment/materials.

Contact the purchasing office if you have further questions regarding surplus equipment inventory.

Business and Non-Instructional Operations

EXPENDITURES: Purchasing Procedures- Equal Employment Opportunity

POLICY

The District shall comply with the Equal Employment Opportunity Clause of the Illinois Department of Human Rights in regard to any Public Contract to which it is a party. All subcontractors to Public Contracts in which the Board or its duly authorized agent(s) enters similarly must comply with the Equal Employment Opportunity provisions of the Illinois Human Rights Act, unless exempt by law. The Central Office will assure that the Equal Employment Opportunity Clause set forth in the Rules and Regulations of this policy, is included in any agreement to which it is applicable, either directly or by reference to this policy or the Illinois Human Rights Act.

RULES AND REGULATIONS

Definitions

For purposes of this policy, the following definitions shall apply, unless superseded by the Illinois Human Rights Act or its implementing Rules and Regulations:

1. Department: Illinois Department of Human Rights.
2. **Public Contract: Any contract, purchase order, lease, or other agreement or understanding, written or otherwise, between the State, its political subdivision or a municipal corporation, and any other person or entity, for the procurement of any thing or service of value, including agreements funded through loans or grants.**
3. Public Contractor: Any person who has been awarded a Public Contract through competitive bidding procedures or otherwise.
4. **Subcontract: Any agreement, arrangement or understanding, written or otherwise, between a Public Contractor and any person under which any portion of the Public Contractor's obligations under one or more Public Contracts is performed, undertaken or assumed, except if the agreement, arrangement or understanding is an employer/employee relationship.**

Equal Employment Opportunity Clause:

During the performance of this contract, the contractor agrees

1. **Nondiscrimination: That it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, marital status, national origin or ancestry, age, physical or mental handicap unrelated to ability, military status, an unfavorable discharge from military service, or any other legally protected category; and further that it will examine all job classifications to determine if minority persons or women are underutilized and will take appropriate affirmative action to rectify any such underutilization.**
2. **Additional Hiring: That, if it hires additional employees in order to perform the contract or any portion thereof, it will determine, in accordance with the Department's Rules and Regulations the availability of minorities and women in the areas from which it may reasonably recruit and it will hire for each job classification for which employees are hired in such a way that minorities and women are not underutilized.**

3. Solicitations for Hiring: That, in all solicitations or advertisements for employees placed by it or on its behalf, it will state that all applicants will be afforded equal **opportunity with out** status, national origin or ancestry, age, physical or mental handicap unrelated to ability, military status, an unfavorable discharge from military service or any other legally protected category.

4. Notice to Labor Organization or Representative of workers with which it has; or is bound by a collective **bargaining or other agreement or understanding/ a notice advising such labor organization or representative of the subcontractor's obligations** under the Illinois Human Rights Act and the Department's Rules and Regulations. **If any such labor organization or representative fails or refuses to cooperate with the Contractor in its efforts to comply with such Act and Rules and Regulations, the contractor will promptly so notify the Department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligation thereunder.**

5. Reports: That it will submit reports as required by the Department's Rules, furnish all relevant information as may from time to time be requested by the Department or the contracting agency, and in all respects, comply with the Illinois Human Rights Act and the Department's Rules.

6. Record Access: That it will permit access to all relevant books, records, accounts and work sites by personnel of the contracting agency and the Department for purposes of investigation to ascertain compliance with the Illinois Human Rights Act and the Department's Rules.

7. Subcontractor Agreements: That it will include verbatim or by reference the provisions of paragraphs 1 through 7 in every performance subcontract (as defined in Section 750.5

EEO Clause - Subcontractor

which any portion of the subcontract obligations are undertaken or assumed, so that such provision will be binding upon such subcontractor. **the** other provisions of this contract, the contractor will be liable for compliance with applicable provisions promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply therewith. In addition, utilize any other subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

In the event of the contractor's noncompliance with any provision of this Equal Employment Opportunity Clause, the Illinois Human Rights Act, or the Rules and Regulations of the Illinois Department of Human Rights, the subcontractor may be declared ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and the contract may be cancelled or voided in whole or in part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.
